Abstract (en)

[origin: WO9703937A1] The description relates to a process for the synthesis of methanol on X-ray amorphous catalysts with a copper, zinc and zirconium oxide content in relative proportions of 10-70 wt.% copper, 10-50 wt.% zinc and 20-80 wt.% zirconium, and suitable catalysts and a process for their production. The process for the synthesis of methanol is distinguished by high space-time yields.
