Abstract (en)  
A web section (12) extends from a central portion in an axial direction of an inner cylindrical section (11), an outer cylindrical section (13) is formed at an outer circumferential portion of the web section (12), coaxially with respect to the inner cylindrical section (11) about the web section (12), and V-shaped grooves (14) are formed on an outer circumference of the outer cylindrical section (13), integrally by a cold working. <IMAGE>
