Abstract (en)
[origin: DE19536481A1] An automatic money dispenser and receiver has a bank note receiving station (20), bank note checking and recognising means, at least one temporary storage of received bank notes, a bank note dispensing station (22), a plurality of storage units (30, 32, 34, 36) arranged in a safe housing (16) to store, feed and/or dispense bank notes, and transport means (40) which interconnect the receiving station (44), the dispensing station (52), the checking and recognising means (58) and the storage units (30, 32, 34, 36). At least one of the storage units (32, 30) contains an exchangeable storage cassette (32, 33) for bank notes to be dispensed. At least one storage unit (34, 36) has a winding storage to receive, store and dispense bank notes. The storage units (30, 32, 34, 36) are linked to a first common conveyor track (40) arranged together with the storage units (30, 32, 34, 36) in the safe housing (16). The checking and recognising means, the temporary storage and a second conveyor track that links these units to the receiving and dispensing stations (20, 22) is arranged in a headpiece (12) located outside the housing (16) in which the storage units (30, 32, 34, 36) are arranged.
