Abstract (en)  
[origin: EP0853049A2] A transport unit for insertion cards for personal computers, has a carrier construction and at least one associated holder. A sheet metal slot member edge has a right angled fixing section, and a free section which extends over the edge. Each holder has at least two right angled pairs of parallel walls, and at least one pair of walls forms a slot (15) for the fixing section of the slot metal. The carrier construction has at least one support (18,19) for each card. The unit pref. consists of, e.g. polystyrol.
