Abstract (en)

[origin: EP0853158A2] The invention relates to an apparatus for applying a sheet which is to be ironed in the inserting pincers of an inserting machine, characterized in that it is equipped with a series of first means for passing the sheet supplied in an arbitrary position with a corner to a series of second means which bring the sheet within the reach of said inserting pincers, which second means pass the gripped sheet in the desired position with an edge to the inserting pincers of the inserting machine. <IMAGE> <IMAGE> <IMAGE>
