Abstract (en)

The structure (1) made up of translucent panels (2) carrying inscriptions (3) is fixed outside the building close to the vehicle exit door. The inscriptions (3) are illuminated by a light located within the structure (1) and audiovisual alarm signals (4) work simultaneously, the foregoing activated by sensors (6) detecting a vehicle travelling towards the exit. The invention is useful to give an advance warning of motor cars leaving garages or enclosures located within buildings. <IMAGE>
