Abstract (en)

[origin: EP0853298A2] The structure (1) made up of translucent panels (2) carrying inscriptions (3) is fixed outside the building close to the vehicle exit door. The inscriptions (3) are illuminated by a light located within the structure (1) and audiovisual alarm signals (4) work simultaneously, the foregoing activated by sensors (6) detecting a vehicle travelling towards the exit. The invention is useful to give an advance warning of motor cars leaving garages or enclosures located within buildings. <IMAGE>
