Abstract (en)

[origin: US6092691A] PCT No. PCT/EP96/04238 Sec. 371 Date Mar. 25, 1998 Sec. 102(e) Date Mar. 25, 1998 PCT Filed Sep. 27, 1996 PCT Pub. No. WO97/12692 PCT Pub. Date Apr. 10, 1997In order to obtain an optimal application of viscous material, such as an adhesive or a sealing agent. The process and apparatus combines the proportional metering device and the outlet valve to form a constructional unit. A static mixing tube is integrated into the filling opening. The feed pipe is partially tempered and therefore maintains the viscous material situated in the feed pipe at a constant temperature.
