Abstract (en)

[origin: EP0853904A2] The protective belt (1) is fixed to the front part of a tray (3) of the baby walker. The belt is removable and is made in latex rubber or natural or synthetic foam material. It is fixed with a gap between it and the outer edge of the tray, to leave room for the hands of the baby. The belt is fixed to the tray by cross bars (4), brackets or hooks. The strip of foam is covered with fabric or bonded to fabric or it can be covered with a film of plastic material.
