Abstract (en)

[origin: EP0856268A1] The guide system to withdraw a sliding drawer, especially under a vehicle seat, has a guide bar (2) with a core of hard plastics and a shrouding of a material which slides well. The shrouding material is of polyamide molybdenum sulphide or polyamide with graphite. The guide bar (2) is produced by twin-component injection moulding. The locking spring (5) force can be increased by a foam insert.
