Abstract (en)
The refrigeration unit has a compartment (4) for a group of compressors bounded by a frame (3) capable of supporting several ventilation units (24) arranged adjacent to each other on top of the compartment. The frame comprises a supporting arrangement which is designed to support the assembly of modules which are mounted on the frame. A supporting chassis (20) is attached to the top of the frame. The frame is a parallelepiped made of metal profiles.

Abstract (fr)
Un groupe de réfrigération comprend un compartiment (4) destiné à loger au moins un groupe motocompresseur (5). Le compartiment (4) est délimité par un bâti (3) capable de soutenir plusieurs unités modulaires de ventilation (24) juxtaposées entre elles au-dessus du compartiment (4). L'ensemble des unités modulaires de ventilation (24) fait saillie en porte-à-faux au-delà du bâti (3). <IMAGE>
