Abstract (en)

A panel structure for cabin walls, in particular for ships or the like, of the kind comprising a slab (1) made of a material apt to be finished to obtain the visible part of the wall, and stiffening frame made of metal sections (2) applied to said slab (1), wherein said sections (2) are made of two main bodies (7, 8) having a polygonal shape and connected to the slab by a flexible thin metal strip (13), said strip having a weakening (14) line that allows the bending of the section to obtain the corner of the wall. <IMAGE>
