Abstract (en)
[origin: EP0857801A2] A method of joining fabrics by a casting off operation on a flat bed knitting machine with at least two needle beds involves knitting both fabrics on separate needle beds (V,H) so that their front face (11.1, 12.1), which forms the outside of the finished garment, faces in, i.e. towards the gap (13) between the needle beds (V,H).
