Abstract (en)

[origin: EP0858887A1] The printer includes at least one counterpressure cylinder, a printing roller and an inker unit with at least one ink-applicator roller or screen roller, which are cantilevered in the frame by one of their ends. Fast-detachable bearings (28) support the shaft journals (5) of the free ends of the pairs of printing and screen rollers. At least one bearing block (10) is movable along guides in the frame and crosswise to the printing and screen rollers.
