Abstract (en)
[origin: EP0860368A2] A foot (3) for loading pallets (1), corrugated cardboard boxes and the like, formed by a single corrugated cardboard sheet (4), die-cut and folded so as to integrally define two box-like end portions (18, 19) of parallelepipedal shape which are mutually connected by a pair of intermediate longitudinal bands (9, 10). In use, a pair of these feet (3) delimit two passages (A, B) which are perpendicular to each other and define four ways for selective engagement therethrough of a fork handling system. <IMAGE>
