Abstract (en)  
[origin: WO9718133A1] A palletizable container made of paper-like material, such as corrugated cardboard or the like, comprising a box-like containment body (11), on the bottom whereof flaps (29) are formed by cutting; the free end (30) of the flaps is larger than the rest and the flaps are adapted to be folded and inserted in shaped holes (26) formed in beams (13) for resting the box-like body (11) on the ground, providing anchoring through the interlock coupling of the larger ends to portions of the holes (26) that are narrower than the free ends (30).
