Abstract (en)

[origin: WO9718152A1] A stacking pressure control device for a stationary horizontal book stacking device in which books (C) fed at a constant rate along a vertical wall (2) are stacked on a stacking table (1). The control device consists of a strain gauge used as a pressure sensor (3, 6, 8) for continuously measuring the stacking pressure exerted directly on the vertical wall (2), and controlling the speed of the stacking table (1). Said control device may be used in a horizontal book stacking device.
