Abstract (en)  
The work-table (1) is adjustable. It has two main leaves (2) which are of generally rectangular shape and which may be brought into contact along their long sides or may be moved apart to leave a gap between them. The gap may be filled by a third leaf (6) which may be lifted up. Both of the main leaves are independently adjustable as to height and may be tilted independently. The table has a foot (3,5) in the form of two Y-shapes joined at the bottom, and there are legs (4) standing on the sides (5) of the Y-shapes containing motors or actuators to drive the adjustment. There is a control keyboard in the corner of one of the main leaves.
