Abstract (en)  
[origin: WO9720697A1] A durable ink jet printable medium comprising a microporous ethylene vinyl alcohol copolymer film. The microporous film has a pore diameter sufficient to absorb pigment particles from a pigment-based ink and a pore volume sufficient to absorb all of the ink directed towards the film. The ink jet printable medium can include a pressure sensitive adhesive on a major surface thereof to form a durable label for use with ink jet printers. Also disclosed is a method of ink jet printing an image onto such a recording medium.
