Abstract (en)
[origin: EP0865916A1] A file, consisting of a front (2) and a rear section and a system of separators with tags (9) for the different compartments. The front cover of the file has a folding flap (5) attached to its free edge (4) which can be opened out to reveal an index (6) identifying the tags of the separators. In a variant of the design the folding flap (5) can be attached to the upper edge of the cover instead of its side edge, and it can be made with a series of windows for an indexing strip behind it.
