Abstract (en)

The shelter comprises a single supporting post (1) and a cover (2) which is fixed to the post so that it is deployed to one side of it. The post is fixed to the ground by a base plate (4) and anchoring rods (5) or similar, and the cover is made from a material (6) stretched over a frame (7) with a horizontal adjustment and tensioning system and a central vertical support (8). The frame is joined to the support (8) by a vertical tube (10) which is connected in turn to the post by a supporting arm (9), and its tensioners are in the form of adjustable threaded couplings at the frame ends.

Abstract (fr)

La présente invention a pour objet un abri à usage universel. Abri caractérisé en ce qu'il est essentiellement constitué par un support unique (1) et par au moins un élément de couverture (2) fixé audit support (1) de manière déportée. L'invention est plus particulièrement applicable dans le domaine de la construction d'abris à usage divers, à savoir pour véhicules automobiles ou pour la couverture d'espace de réception de personnes, tels que des préaux, des terrasses ou analogues. <IMAGE>
