Abstract (en)
The pillow has a cover and a filling that has at least 50% by weight of particles of cork (3). These have an irregular shape and their maximum dimension is 1-3 mm. They are made from cork whose density is about 50 kg/m³. The filling also contains vegetable components (4,5) that have antiseptic, fungicidal, and germicidal properties. These can be cut leaves of boldea fragrans at a proportion of 4%, or catnip or other herbs.

Abstract (fr)
Oreiller en matière végétale comprenant une enveloppe (1) et un garnissage, caractérisé en ce que ledit garnissage comprend au moins 50% en poids de particules de liège (3) de forme irrégulière dont la dimension maximale est comprise entre 1 et 3 mm. Le garnissage de l'oreiller de l'invention permet d'obtenir un soutien ferme de la tête et du cou de l'utilisateur tout en s'adaptant facilement à la morphologie et à la position de celui-ci. <IMAGE>
