Abstract (en)
[origin: EP0867205A1] The portable pressure fire extinguisher, with a gas container (2) within the container (1) for the extinguishing medium, has a covering shroud (10) fixed to the upper side of the appliance at the container (1) to give a total or partial cover apart from the striking knob (4). The carrier handle (11) is fitted to the covering shroud (10), with the curve grip (11) offset away from the vertical movement axis of the striking knob (4). The hose (7) is held loosely at the handle (11).
