Abstract (en)

[origin: EP0868111A2] A microwave oven is disclosed and includes a housing (100) having a cooking chamber (110) and a motor (160) for driving a fan (150) to dissipate heat generated by electrical components (131,132,133), said motor (100) having electrical terminals (164) for connection to a power supply and means (180) are included for enclosing the electrical terminals (164) to prevent the possibility of an electric shock occurring during maintenance or performance testing. In one embodiment, the means (180) for enclosing the terminals is a protective cover. <IMAGE>
