Abstract (en)
[origin: EP0868858A2] The side of a sports glove on the inner face of the hand has a single or multi-layer textile-based backing layer (1) with a latex layer (3) on the side remote from the hand and latex-laminated area (13) and latex-free area (15) on the side facing the hand. Preferably the latex-laminated and latex-free area are in the form of alternate stripes and the former covers about 70 per cent of the backing layer, which includes a layer (5) mostly of cotton with addition of an elastomeric material. A foam layer (9) can be provided with a textile cloth interlayer (7).
