Abstract (en)
Polyolefin wax free hydrophilic conditioners comprise: (A) ester quats; (B) silicone compounds; and (C) optional further surfactants. The use of polyolefin wax free mixtures of (A)-(C) as conditioners is also claimed.

Abstract (de)
Vorgeschlagen werden neue polyolefinwachsfree Avivagemittel, enthaltend Esterquats und Siliconverbindungen sowie gegebenenfalls weitere Tenside. Die Zubereitungen verleihen Textilien nicht nur einen angenehmen Weichgriff und vermindern die elektrostatische Aufladung zwischen den Fasern, sondern verbessern insbesondere die Hydrophilie und damit die Wiederbenetzbarkeit der Gewebe.
