Abstract (en)

[origin: WO9724446A2] Fusion proteins composed of an MHC Class I molecule, MHC Class II molecule, or beta 2 microglobulin, and a targeting ligand are disclosed. Also disclosed are nucleic acid molecules which encode such fusion proteins as well as suitable expression cassettes and host cells. Also provided are methods for targeting a gene delivery vehicle to a selected cell type utilizing gene delivery vehicles which contain on their surfaces one of the above-mentioned fusion proteins.
