Abstract (en)

[origin: EP0872818A2] The arrangement has an illumination arrangement (8) for illuminating the keys (2) and light conducting units (9) for transferring the light from the illumination arrangement to the key field. The light conducting units match the shapes of the keys and enclose the keys. The light conducting units are made in one related piece of a material transparent to light. The illumination arrangement contains light emitting diodes arranged in the vicinity of the key field.
