Abstract (en)

[origin: WO9624197A1] A selective call receiver (710) having a receiver (714) for receiving paging messages; a decoder (716), coupled to the receiver (714), for decoding the paging messages, and a housing (308) having a battery (306) for a cellular telephone (702). The battery (306) includes a power supply (704) for providing power to both the selective call receiver (710) and the cellular telephone (702). A display (310) is positioned on and integrally coupled to an outer surface (308) of the battery (306) for displaying the paging messages.
