Abstract (en)
[origin: EP0873768A1] Fire extinguishing compositions for foam or water-spray extinguishers, comprising at least one water soluble AFFF emulsifier and combustion inhibitor and sufficient amounts of urea, citric acid and ethylene (or propylene) glycol to form a homogeneous clear solution. The nature of the composition is unchanged even after freezing. Also claimed, is a foam or water-spray extinguisher using the composition for extinguishing class A and B fires.
