Abstract (en)
[origin: EP0875176A2] An attachment (4), which has a guide body (5) fitting into a guide slot (6) in the side metal frame-drawer part (2), protrudes towards the frame-part, and is positioned on the front cladding panel (1). A catch (10) is positioned in front of the guide body and grips behind a locking-stop piece (9) on the frame-part and formed by a cavity in the frame-part and running crosswise to the guide slot as a wider part (8) of the slot. The catch inserted into the wider part through the guide slot holds a bolt (11).
