Abstract (en)  
A cartridge type plasma torch in which expendables can easily be replaced, cooling water and operation gas are securely sealed when expendables are replaced, and the accessibility to a work piece during operation can be improved. For this purpose, the cartridge type plasma torch includes an expendable cartridge (2) including an electrode (4) and /or a torch nozzle (3), and a torch main body (30) which has supply lines for supplying cooling water and operational gas to the expendable cartridge (2), and which allows the expendable cartridge (2) to be mounted and / or dismounted from an end opposite to an arc injection port (20) when viewed in a longitudinal direction of the torch. <IMAGE>
