Abstract (en)  
[origin: EP0878676A2] The refrigerator has a thermally-insulating housing provided with a hinged door (10). The front of the door can be fitted on the front with a three-dimensional fascia panel (16), for matching the adjacent kitchen units. The fascia panel is secured to the door using fixings (17) attached to at least the top and bottom edges of the door. At least those fixings secured to the door bottom edge have a T-shaped profile, with a perpendicular fixing lug (18) asymmetric to the width of the foot (20) secured to the rear surface of the fascia panel.
