Abstract (en)
[origin: US5715533A] A headgear to be worn on the head of a person, in particular a sunhat or a cap, includes a main body having an outer surface area exhibiting wettable properties over at least part thereof to define an evaporative zone, and a coolant supply unit for feeding a coolant from a coolant reservoir to the evaporative zone for permitting coolant to escape through evaporation, with the coolant supply unit including a tube connection linking the coolant reservoir to the evaporation zone of the main body.
