Abstract (en)

[origin: US6122883A] PCT No. PCT/EP97/00675 Sec. 371 Date Aug. 13, 1998 Sec. 102(e) Date Aug. 13, 1998 PCT Filed Feb. 13, 1997 PCT Pub. No. WO97/30245 PCT Pub. Date Aug. 21, 1997A plastering fillet for building components used at the transition to plaster is disclosed. The plastering fillet includes a base portion having a base wall, which can be secured to the building component. The base portion also has at least one extension perpendicular to the base wall and extending out therefrom. The plastering fillet also has a front portion having at least one web, which also projects perpendicular to the base wall of the base portion. The connection between the base portion and the front portion of the plastering fillet permits relative movement between the portions thereby preventing plaster cracking or breaking.
