Abstract (en)

[origin: EP0881701A1] The mounting unit (1) includes a screw bolt (10) of an antenna foot (15), and a locking nut (20) for mounting the foot to a breakthrough of an installation surface area (25). The locking nut is connected over a latch element (30) with a pot-shaped ring plate (35) which comprises a side slot (40), through which at least one cable (45,50), especially an antenna cable, is led to the antenna foot. The latch element includes at its side a channel-like protrusion (55) which is led through the slot of the ring plate. The at least one cable is led through the channel-like protrusion.
