Abstract (en)
The picture/urn comprises a frame (1) with the space inside it containing a sealed rectangular urn (4) containing the ashes, fronted by a picture (3), photograph or drawing of the deceased, protected by a sheet of glass (2). The assembly is protected by a back sheet (5) and fitted inside the frame, which is made deep enough to contain it all. The back sheet is held in place by staples. The urn itself is made from two flat transparent sheets which allow the ashes inside to be seen, attached to an inner frame to create a suitable space between them. The inner frame has a lower member and two uprights, and is completed by a removable covering strip.
