Abstract (en)

[origin: EP0887484A1] The facade (1) comprises a glazing element (2) fixed onto a carrying structure (6) by fixings (7). In addition there is a stiffener (12) which is connected to the structure by a connection piece (13) with at least one degree of freedom, excluding that in the direction normal to the facade. The structure has two lateral reinforcements and the connecting piece has two complementary projecting parts enabling it to slide in the structure.
