Abstract (en)

An incandescent glow plug for preheating Diesel engines, comprising a main body (14) of elongated shape and having a threaded length (30) for connecting the plug into the cylinder head of the engine, and a sheathing element (12) projecting from one end of the main body and containing a spiral resistor (18) attached to a terminal (20) projecting from the second end of the main body (14). The sheathing element (12) and the main body (14) are obtained integrally from a single monolithic workpiece. <IMAGE>
