Abstract (en)

[origin: EP0890326A2] The brush or comb has a handle (2) and a body (1) supporting a spongy body (3) or a reservoir that holds the colouring material. Cylinders (4), which can be impregnated with the colouring material, are fixed to the spongy body. The body and the handle are made from wood or plastic material and the spongy body is made from high density foam or felt. The colouring material can be a paste that is solidified and moulded to the shape of the brush or it can impregnated into the sponge and the cylinders.
