Abstract (en)

[origin: EP0890965A2] The illuminated operating button, used for operation of at least one electric switch for the roller shutter operating drive, is incorporated in a removal cover fitted to the housing of the operating drive. The light source for illuminating the operating button is contained within the housing and revealed upon removal of the cover, its light output fed to the rear of the transparent operating button via at least one light conductor (24,25).
