Abstract (en)

The lamp employs a fluorescent tube (9) which is protected by a partly transparent cover (19). The fluorescent tube is supported by a two part box (5,7) which has ventilating holes (8) and also contains an electronic device of tube ignition (6). The lamp is designed to fit directly into wall sockets and has a pins and plug (1,2) connected to the fluorescent tube (9) through a microswitch (12) and an articulated arm (4). This allows the orientation of the lamp and the linked switching to be adjusted to the needs of the individual location.

Abstract (fr)

Lampe électrique destinée à être raccordée à un secteur par l'intermédiaire d'une prise de courant, comprenant au moins un tube fluorescent (9, 109), des moyens électroniques (6, 106) d'allumage dudit tube fluorescent, des moyens de support (5, 7, 105) dudit tube fluorescent, une fiche électrique (2, 102) électriquement connectée au dit tube fluorescent via des moyens d'interrupteur (12, 112) permettant une commande de ladite lampe, des moyens d'articulation (4, 15) de ladite fiche électrique sur lesdits moyens de support. <IMAGE>
