Abstract (en)  
[origin: EP0892463A2] The terminal has a contact strip (4) which has three radial contact studs (21,22,3) inside a recess (18). The contact studs are separated by large interspaces (24,25,26). The ends of the contact studs go over into the contact strip. The studs have a narrower diameter than the recesses lying between (24,25,26). The construction provides a good spring effect.
