Abstract (en)
[origin: WO9736792A1] A display package (95) for articles such as batteries includes a hollow display box in which one or more articles are secured, the box having an interconnected display face (16), end walls (22, 26) and back panel (20), and a hanging support panel (12) extending above the box and substantially coplanar with the back panel, a display window (C1) created in the display face by displacing into the hollow box a portion of the display face and a portion of the end wall, whereby the display face portion provides an internal partition (96) connecting the display face with said back panel.
