Abstract (en)

[origin: US6233535B1] The invention is directed to an electric shaver or an apparatus cooperating with the shaver, with a microcontroller which operates to obtain information about the use history of the shaver or the apparatus cooperating with the shaver, about the current operating condition of the shaver or the apparatus cooperating with the shaver and/or the components incorporated in the shaver or the apparatus cooperating with the shaver, wherein at least individual items of said information are output only in a separate output mode for such information.
