Abstract (en)

[origin: EP0899531A2] The border webs (3) of heat exchange plate (2) which forms flow tanks (1) has aperture (12) for flow of heat exchange medium. The border (3) are mutually coupled through a connection tank (9) which is provided with discharge conduits (10,11), outwardly. Several flow tanks (1) are mutually coupled through apertures (5,12) for flow of heat exchange media. The heat exchange plates (2) forming the flow tanks (1), have border web (13) which are respectively extended around.
