Abstract (en)

[origin: EP0900974A2] The fixture comprises a collar (3) surrounding an aperture of a reflector (2), and a holder ring (4) put on the collar (3) and fixed through hook-like splint elements (6) at a side of the collar. A plot surface is formed by at least two plot elements (8) of the reflector, between which at least respectively one hook-like splint element is arranged.
