Abstract (en)
[origin: EP0902153A2] The movable panels have rectangular panels (2) with rollers (6) at the top (6a) and bottom (6b) to run between top and bottom guides. Each pair of rollers has offset rolling axes straddling the central plane through its panel, and is fitted near to the top and bottom corners of the panel. The panels can be slid to one end of the balcony where they are stacked between parallel guides.
