Abstract (en)

[origin: EP0903705A1] The dispensing device (1) has a housing (3) provided with a display window (20) through which a number of storage compartments (22) for the packaged frozen food items are visible, the frozen food items indexed along each storage compartment to the dispensing point via a feed device (23) moved parallel to the display window and fed around a curved slide (32) within the housing.
