Abstract (en)

[origin: EP0904897A2] Kit, especially for use with abrasive disks or similar abrasive sheets having an abrasive side and a non-abrasive side, consisting of a main block (1) having an upper portion (3) acting as an handle for the user and a bottom surface (5) defining a coupling surface with one of said disks or with one of a plurality of fitting blocks (2a-2e) each of them has a first coupling surface (7) corresponding to said coupling surface (5) of the main block (1) and a second coupling surface (8) defining a coupling surface with the non-abrasive side of one of said disks, the second coupling surfaces of said fitting blocks having different curvilinear shapes in order to be suitable to the sanding of variously shaped surfaces to be treated. And sanding blocks (1'), especially for use with abrasive disks or similar abrasive sheets having an abrasive side and a non-abrasive side, having a curvilinear coupling surface (8') defining a coupling surface with the non-abrasive side of one of said disks. <IMAGE>
